

BOILER SAFETY INTERPRETATION/TECHNICAL LETTER
BSI03

MEMORANDUM

TO: ALL INSPECTION AGENCIES & SUPERVISORS

FROM: Fred P. Barton, Director/Chief Inspector
Boiler Safety Compliance Program

SUBJECT: Back to Basics II

DATE: March 26, 2001

In our memorandum of January 17, 2001 it was announced that there would be a meeting in the spring of representatives of all inspection companies providing certificate inspections in Virginia. The purpose of that meeting is to discuss subjects of common concern.

Arrangements have been made to hold the meeting on April 19, 2001 from 9:00 am to 11:30 am at the Holiday Inn-Richmond Airport, 5203 Williamsburg Road, Sandston, Virginia 23150, telephone number (800) 964-6886.

The following subjects will be presented for discussion:

- a. Website
- b. Processing Reports for Certificates of Inspection
- c. Violations
- d. Incidents Reports
- e. Autoclaves
- f. Types of exempted vessels that contain water

It is requested that a representative of every inspection company doing business in Virginia attend this important meeting to address some longstanding basic issues. Both supervisors and inspectors are encouraged to attend. Any company who cannot attend should promptly notify me with an explanation in writing.

We look forward to seeing everyone again on April 19th. Hopefully, at the conclusion of this meeting there will be a better understanding of the Virginia Boiler Rules and Regulations and Procedures.
